Sales Framework

The SWG sales blueprint

Owner: Patrick Collins

What is the Sales Blueprint?

- 4 Content Pillars
- Budget
- What is sales made up of
- Batch time-view chart
- Batch time-view tables
- Extra Skills Training
- MD responsibilities & Scoring Framework
- Detailed Training Breakdown
- Online Extra Training

Program is divided into 4 Content Modules

Pillar 1
Analysing the teams communication, sales set up, ICP and creating a sales playbook to give them a strong foundation to start lead generation

Pillar 2
Startups learn all the practical skills to generate leads via LinkedIn, email and content marketing

Pillar 3
Startups focus on demos, negotiation and corporate sales. Teams are pushed to get on the phones more and convert leads

Pillar 4
Startups start to build all the framework they need for automated account management and paid advertising plan for life after the batch

Sales Budget – 4000 Euros per program

New Coaches need to do first session for free with SWG

After first session standard rate is 550 Euros per day

If the person has amazing feedback and is exceptional we can stretch to 900 Euros maximum

MD responsibilities

- Assuring each company has a score of over 70 / 100 for every part of the startup scoring framework by the end of the program
- Ensuring extra sessions are ran or individual coaches / mentors are brought in by him as and when needed
- Ensuring Startups adhere to best practice with sales and lead generation techniques
- Sharing feedback with SWG team on coaches and program sales framework so that we can continue to improve

Startup Scoring Framework

MD and PM is responsible for analysing the teams at the start of the program and maintaining a sales score card.

The purpose of this is to make sure that every team has a score of over 70/100 on each topic by the end of the program. Also it will be shared with external coaches to know how to help the teams.

If less than 70 there will be a red flag and SWG team will work with them until they have improved.

If over 70 they will have a green flag. PM / MD will continue to help them but expect the teams to keep developing on their own also

Saas Analysis

Patrick Collins analysis of where the teams are at. The red Flags are only relative to the most recent analysis (eg communication)
ICP = how good are the teams communicating in the language they will be selling in

Dan Wheatley

Co Founder Straight Talk Consulting

+ **Experience:**
I started Straight Talk with my co-founder as we didnt feel the market was answering the most common question startups had which was "what do I need to do and when do I do it in order to scale"

Since our inception we have expanded to five countries around the world, made investments in three and helped dozens of companies achieve their growth goals.

Our expertise is not as a marketing agency or sales consultant (although we can do those) but it's having the experience of walking that path of market fit to fast growing company. Knowing what the hazards are, knowing where people fail and earning the scars that come along with it.

+ **"Super power":** Business Growth - Knowing what to do and when to do it

+ **Fun fact:** I lived in the United States for a year as the first country Straight Talk expanded to after the UK.
